

SharePoint 2007 for the NHS So you have SharePoint, what's next?

From consolidating disparate enterprise content management systems to enhancing employee productivity through better search, collaboration, and social networking tools, SharePoint helps NHS organisations manage challenging economic conditions and maintain profitability.

Content and Code would like to invite you to an exclusive **SharePoint 2007 for the NHS** seminar held at London's prestigious Microsoft Victoria offices on **Thursday 24 September 2009** from 9:30-13:00. Enjoy interactive sessions, live demos, as well as a buffet lunch.

Content and Code and industry professionals will be conducting interactive sessions on;

- **SharePoint for the NHS**, how SharePoint is becoming business critical within the NHS
- **eHR what's next?**, with intelligent workflows and forms
- **Workforce Management**, with Line of Business (LOB) applications
- **Healthcare Business Intelligence**, with Key Performance Indicators (KPI), scorecards, dashboards and reporting
- **Securing the NHS perimeter**, with Intelligent Application Gateway (IAG)

Learn how to make the most of your Microsoft® Office SharePoint® Server 2007 investment in order to further benefit your NHS organisation. In addition, discover how to maximise SharePoint's features and toolsets with a staggering array of tools and capabilities that undeniably make SharePoint 2007 an enterprise-class solution, including business intelligence and workforce management.

This event is **FREE** and is aimed at NHS CIOs and Senior IT Managers, Project Managers, PMOs, Programme and Portfolio Directors, CFOs and Finance Directors wishing to take full advantage of MOSS 2007.
